Subject: Re: Sugar Inward Processing - Equivalent Goods

Dear Mr Straw,

Many thanks for seeking a meeting to discuss the regime for the inward processing of raw sugar. However, we don't feel the need to meet on this issue right now, since it is well explained in the document available at:

http://ec.europa.eu/taxation_customs/customs/procedural_aspects/imports/inward_processing/index_en.htm

Should you not find there what you are looking for, than our services will be most happy to help you.

Best regards,

Heinz ZOUREK
