SIHVONEN Liisa							
SPOOLDER Hans	<p>1# Wageningen UR Livestock Research. In 2006 my part of the organisation changed its name and structure, and I became head of a cluster of animal welfare researchers. In 2011 the cluster became a department and grew to 38 staff. The content of my work did not change: I manage the team and am involved in research activities for national (e.g. ministry, product boards, NGO's, farming industry) and international (e.g. EFSA, DG RTD, DG SANCO) funders. The vast majority of our animal welfare work (&gt;70%) is for the Dutch ministry of EL&amp;I. Approximately 15% for the product boards, 10% comes from abroad and 5% from the farming industry. We are paid to carry out independent research, and are not involved in lobbying or promoting products on behalf of any funder. 03/2006 – now.</p> <p>2# Division of Applied Research, Animal Sciences Group. Cluster Leader in a research organisation. The Animal Sciences Group was (and is) an independent research organisation. We performed contract research for different funding bodies (Dutch ministry, EU, EFSA, NGO's, product boards, industrial parties). We were not asked to support any interests of any (commercial) parties, but were paid to perform scientific and unbiased research. 08/2003 - 03/2006.</p> <p>3# Wageningen UR Livestock Research. As part of my employment for</p>	<p>1# <a href="#">Wageningen UR</a> is a Dutch university and research centre, which is not of EFSA's list of food safety organisations.</p> <p>2# The Division of Applied Research, <a href="#">Animal Sciences Group</a> is part of <a href="#">Wageningen UR</a>, a Dutch university and research centre.</p> <p>3# Insufficient information about the research projects.</p>	<p>1# IV</p> <p>2# IV</p> <p>3# VI</p>	<p>1# CbC</p> <p>2# no</p> <p>3# CbC</p>	<p>1# yes</p> <p>2# no (+5 years)</p> <p>3# ?</p>	<p>3# Insufficient declared information to assess the</p>	<p>1# Public research centre providing paid services to the private sector.</p> <p>2# Public research centre providing paid services to the private sector.</p>

	<p>Wageningen UR (Div of Applied Research and its successors) I have been involved as project leader in pig welfare research for the Dutch ministry, EFSA and the European Commission. I have contributed as an expert to projects lead by others. These projects were commissioned by the Dutch ministry mainly, and sometimes also by the Dutch product boards and the EU (often in combination). All funding received went to my employer, and I did not have any direct financial benefit from any of these projects. In none of these projects my employer nor I were paid to support any interests of any (commercial) parties. The research (co-)funding I received from the private sector in the latest full budget year, and for the areas covered by the Panel, does not exceed 25% of the total annual research budget that is managed by me. 03/2006 – now.</p>	<p><a href="#">Wageningen UR</a> is a Dutch university and research centre, which is not considered a Food Safety Organisation (FSO) by EFSA.</p>				interest.	
STEGEMAN Jan Arend	<p>1# Private Organizations. The research (co-)funding I received from the private sector in the latest full budget year, and for the areas covered by the Panels, does not exceed 25% of the total annual research budget that is managed by me. 01/2011 – now.</p> <p>2# EU-funded FP6** project FLUTEST - Improved diagnosis and early warning systems for avian influenza outbreak management. 09/2007 - 01/2010.</p> <p>3# EU-funded FP6** project HEALTHY POULTRY - Development of new integrated strategies for prevention, control and monitoring of epizootic poultry diseases. 09/2004 - 09/2008.</p> <p>4# Stichting ISVEE13. Foundation for the Organisation committee of the 13th International Symposium of Veterinary Epidemiology and Economics, to be held in Maastricht The Netherlands from 20-24 August 2011 (chair). 09/2011 – now.</p>	<p>1# Research funding from unknown private companies.</p> <p>2# <a href="#">FLUTEST consortium</a> included private diagnostics companies such as <a href="#">Cepheid</a> (Nasdaq: CPHD) “a leading molecular diagnostics company”.</p> <p>3# <a href="#">HEALTHY POULTRY consortium</a> included only public research institutes and universities.</p> <p>4# The <a href="#">13th International Symposium of Veterinary Epidemiology and Economics</a> was held in 2012.
