9 February 2016

Dear Commissioner,

On behalf of BUSINESSEUROPE, the European Risk Forum and the European Round Table of Industrialists, we would like to thank you for participating in the conference "A better framework for innovation" on 26 January.

We greatly appreciated your contribution to the discussion on how to best design the regulatory framework to foster innovation. Our ability to innovate determines our ability to deal with societal changes. Therefore, it is now urgent to define what needs to be done to make Europe a better place to innovate.

We strongly believe that the adoption of the Innovation Principle within the EU's policy framework could represent a systemic solution to this challenge. We will continue to promote it to enrich the quality and application of EU legislation and to stimulate confidence and investment in innovation.

Once again, thank you for taking part in the discussion and we look forward to working together to forge a strong innovation agenda for Europe in the months to come.

Yours sincerely,

BUSINESSEUROPE
