

Dear Margarida,

Thanks for your email.

As you know, I finished the parliamentary mandate at July 1st 2014. Nine months after finishing the mandate, I started working for Adam Opel AG.

It is not in question, that Opel and myself did and does respect the existing laws and the EU-Institution Rules. Same is valid for Hannover.

"GANOS Kaffee" is a small business in my beautiful hometown Leipzig near the famous Thomaskirche, which I founded with friends a very long time before the parliamentary mandate.

I'm very happy, that it is after years of hard working successful, increasingly appreciated and creates for three employees safe workplaces.

If you like handroasted coffee in a broad variety from all over the world, you can order here:
