

Dear Mr Lippold,

Thank you for your message concerning the Polish draft legislation transposing Council Directive 2009/119/EC (henceforward "the Directive").

As you rightly point out, the Polish legislation transposing the Directive has not yet been adopted. Please note that the Commission does not assess and discuss national draft legislations except in the internal market context under Directive 98/34/EC or in exceptional cases when a Member State explicitly asks us to do so. Once the Polish authorities notify the new legislation, the Commission will analyse the conformity with the provisions of the Directive. When carrying out the conformity check, we will keep your remarks in mind.

Thank you for your understanding.

Best regards,
Zsolt Tasnadi
DG Energy Unit A1
European Commission

Dear Mr Tasnádi,

Please find attached our information letter on implementation of the Oil Stocks Directive (2009/119/EC) in Poland.

Kind regards,

Marcus Lippold
